BI WebPortal 2019 What's New

Jan-2019

Release: BI WebPortal 2019a

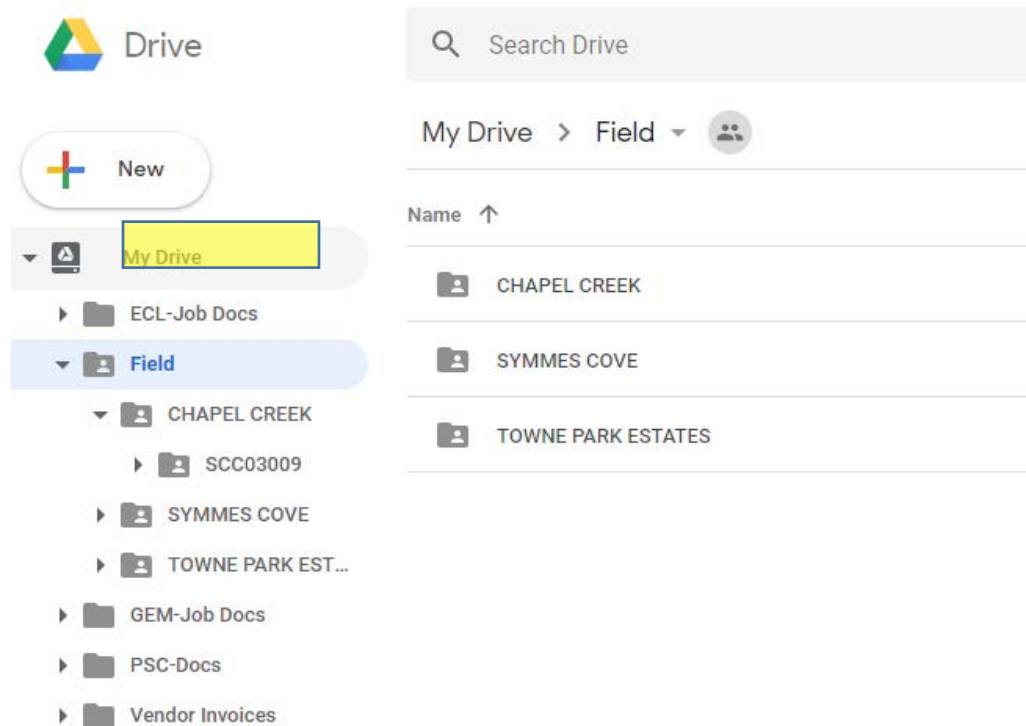

Version: 2019.01.1812.311

API Integration to Google Drive for Document Management

Software Report: WEB-70

The BIWebPortal is designed to provide real time, secure access to job information from any device, from any location. This new enhancement provides a direct integration to Google Drive, giving users a familiar “back-end” user interface where they can upload documents.

Job Superintendents and Vendors can now access documents via the BIWebPortal with those documents stored in a Google Drive folder. Notice the Google Drive folder below (FIELD). This is where job related documents will be uploaded so that your Job Superintendents and Vendors can access via the BIWebPortal.

The screenshot shows a web browser window with three tabs: 'VSCC03009 - Google Drive', 'Builder Incubator WebPortal', and 'SCC09003-Spreadsheet Example'. The active tab displays a Google Sheets spreadsheet. The spreadsheet has columns labeled A through I and rows numbered 1 through 6. Cell B3 contains the text 'add data'. The interface includes a menu bar (File, Edit, View, Insert, Format, Data, Tools, Add-ons, Help), a toolbar with various editing tools, and a 'SHARE' button in the top right corner.
